**Nathe Loose Ring snaffle**

single jointed

- mouth and tongue friendly
- joints made of anti-allergic plastic
- classical training bit
- increased pressure on the edges of the tongue and the lower jaw
- direct and precise impact
- suitable for all disciplines and education levels

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]

3076	Thermoplastic	145	5.3/4	20	70

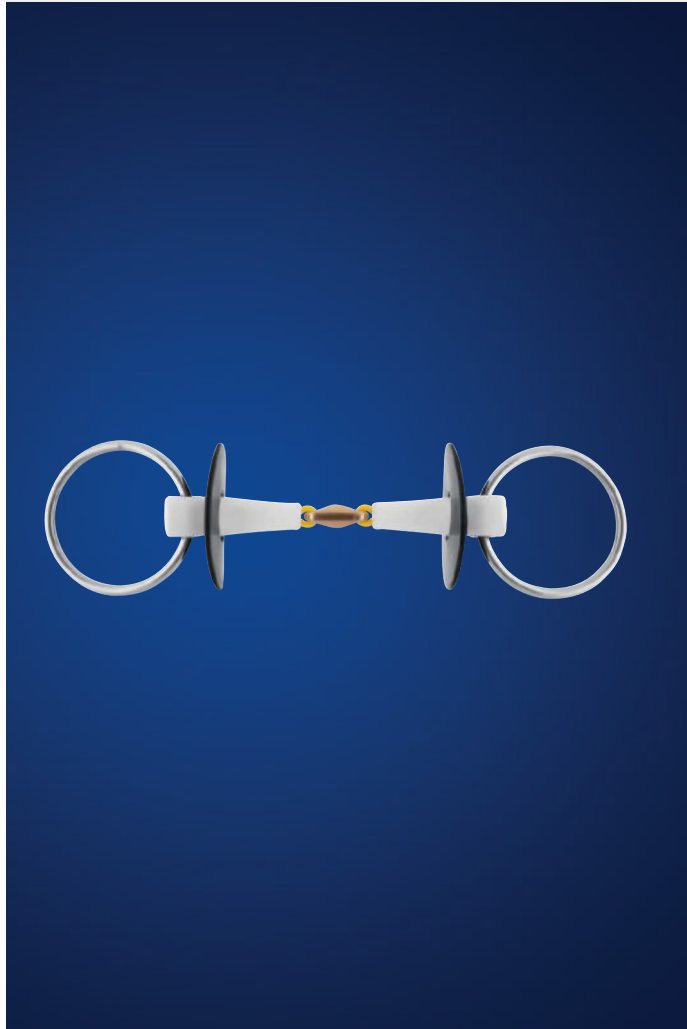

**Nathe Loose Ring snaffle**

with SENSOGAN middle link

- mouth and tongue friendly
- the Sensogan middle piece fosters the acceptance of the bit and stimulates the flow of saliva
- improves the chewing activity of the horse
- direct and precise impact
- even pressure distribution on the tongue and lower jaw
- suitable for all disciplines and education levels
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3078	Thermoplastic	125	5.	18	70
3078	Thermoplastic	135	5.1/4	18	70

3080	Thermoplastic	145	5.3/4	20	70

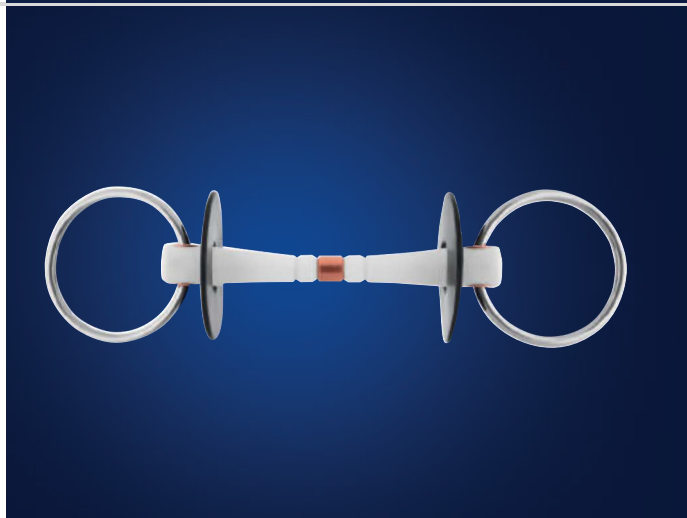

**Nathe Loose Ring snaffle**

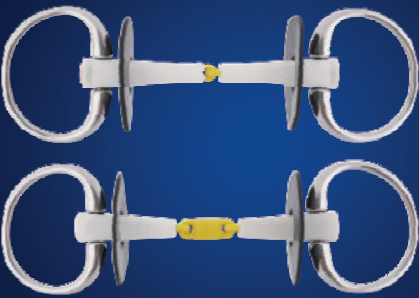

flexible with copper middle link

- mouth and tongue friendly
- the copper part fosters the acceptance of the bit and stimulates the flow of saliva
- improves the chewing activity of the horse
- steady and even pressure on the tongue
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]

3129	Thermoplastic	145	5.3/4	18	70	double jointed

**Nathe D-Ring bit**

single jointed

- mouth and tongue friendly
- joints made of anti-allergic plastic
- lies steady in the horse's mouth, no slipping through
- increased impact on the tongue edges and lower jaw
- direct impact on tongue and lower jaw due to fixed cheeks
- the lateral contact helps horses that tend to fall out whilst riding or approaching an obstacle
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3134	Thermoplastic	125	5.	18	75
3134	Thermoplastic	135	5.1/4	18	75
3134	Thermoplastic	145	5.3/4	18	75

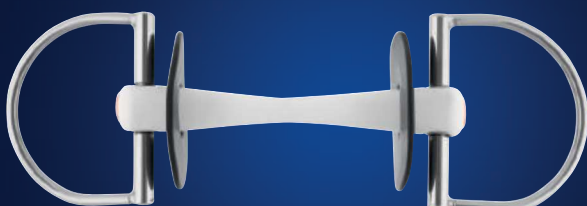

**Nathe D-Ring bit**

double jointed

- mouth and tongue friendly
- joints made of anti-allergic plastic
- lies steady in the horse's mouth, no slipping through
- even pressure distribution on the tongue
- direct impact on tongue and lower jaw due to fixed cheeks
- the lateral contact helps horses that tend to fall out whilst riding or approaching an obstacle
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]

3135	Thermoplastic	135	5.1/4	18	75
3135	Thermoplastic	145	5.3/4	18	75

**Nathe D-Ring bit**

with flexible Mullen Mouth

- mouth and tongue friendly
- lies steady in the horse's mouth, no slipping through
- with low port
- steady and even pressure distribution on the tongue
- direct impact on tongue and lower jaw due to fixed cheeks
- the lateral contact helps horses that tend to fall out whilst riding or approaching an obstacle
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3130	Thermoplastic	120	4.3/4	20	75
3130	Thermoplastic	130	5.1/8	20	75
3130	Thermoplastic	140	5.1/2	20	75

**Nathe Standard snaffle**

with flexible Mullen Mouth

- mouth and tongue friendly
- with low port
- suitable for young or sensitive horses
- steady and even pressure on the tongue
- higher pressure on tongue edges from rein aids
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3052	Thermoplastic	120	4.3/4	20	55

3054	Thermoplastic	130	5.1/8	20	70
3054	Thermoplastic	140	5.1/2	20	70

**Nathe Pony Standard snaffle**

with flexible Mullen Mouth

- mouth and tongue friendly
- with low port
- suitable for young or sensitive horses
- steady and even pressure on the tongue
- higher pressure on tongue edges from rein aids

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3050	Thermoplastic	110	4.1/4	16	55

**Nathe Mullen Mouth bit**

with port

- mouth and tongue friendly
- relieves the middle of the tongue
- suitable for horses that pull the tongue up
- suitable for strong horses
- available in three different degrees of hardness

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]	Hardness degree
3088	Thermoplastic	125	5.	15	70	hard
3088	Thermoplastic	135	5.1/4	15	70	hard
3088	Thermoplastic	145	5.3/4	15	70	hard
3092	Thermoplastic	125	5.	20	70	normal
3092	Thermoplastic	135	5.1/4	20	70	normal
3092	Thermoplastic	145	5.3/4	20	70	normal
3090	Thermoplastic	125	5.	15	70	soft
3090	Thermoplastic	135	5.1/4	15	70	soft
3090	Thermoplastic	145	5.3/4	15	70	soft

**Full cheek**

Bits with fixed cheeks should fit closely to both mouth corners and must therefore be chosen smaller than loose ring snaffles. Due to the contact of the sidepart to the corner of the mouth the rider achieves additional support from the rein aids.

Recommended for horses with sensitive mouth corners, horses that tend to play with the bit and therefore give the rider an unsteady contact and for horses that tend to fall out whilst riding or approaching an obstacle.

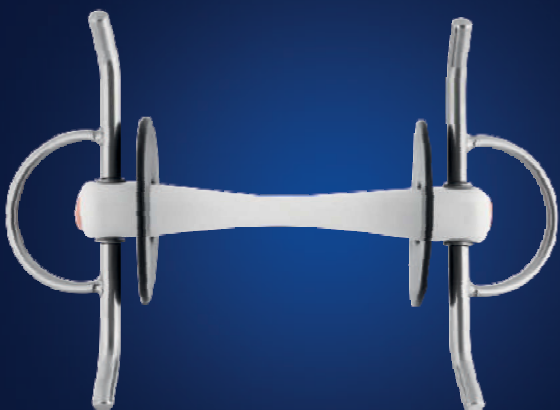

**Nathe Full Cheek snaffle**  
with flexible Mullen mouth

- with low port
- direct impact on tongue and lower jaw due to fixed cheeks
- cheeks provide lateral contact
- helps horses that tend to fall out whilst riding or approaching an obstacle
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3100	Thermoplastic	120	4.3/4	20	55
3100	Thermoplastic	130	5.1/8	20	55
3100	Thermoplastic	140	5.1/2	20	55

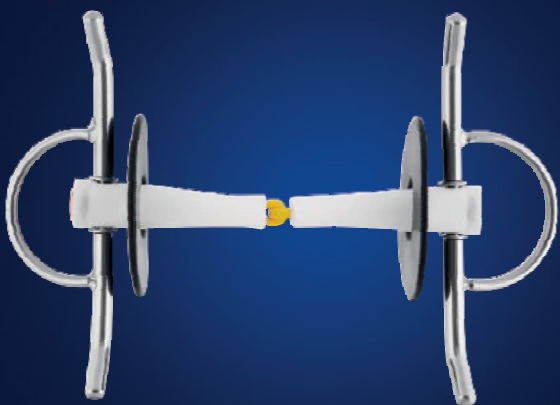

**Nathe Full Cheek snaffle**  
single jointed

- increased pressure on the edges of the tongue and the lower jaw
- direct impact on tongue and lower jaw due to fixed cheeks
- cheeks provide lateral contact
- helps horses that tend to fall out whilst riding or approaching an obstacle
- joints made of anti-allergic plastic
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3104	Thermoplastic	125	5.	18	55
3104	Thermoplastic	135	5.1/4	18	55
3104	Thermoplastic	145	5.3/4	18	55

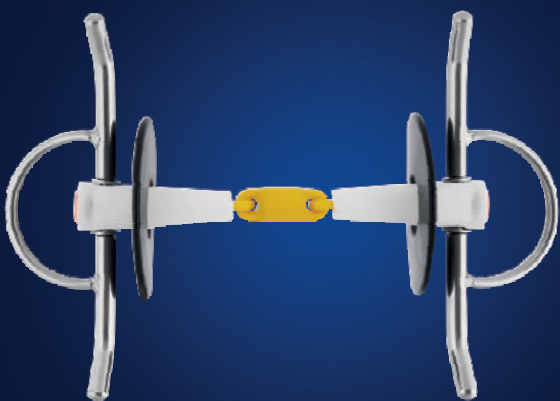

**Nathe Full Cheek snaffle**  
double jointed

- even pressure distribution on the tongue and lower jaw
- direct impact on tongue and lower jaw due to fixed cheeks
- cheeks provide lateral contact
- helps horses that tend to fall out whilst riding or approaching an obstacle
- joints made of anti-allergic plastic
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3108	Thermoplastic	125	5.	18	55
3108	Thermoplastic	135	5.1/4	18	55
3108	Thermoplastic	145	5.3/4	18	55

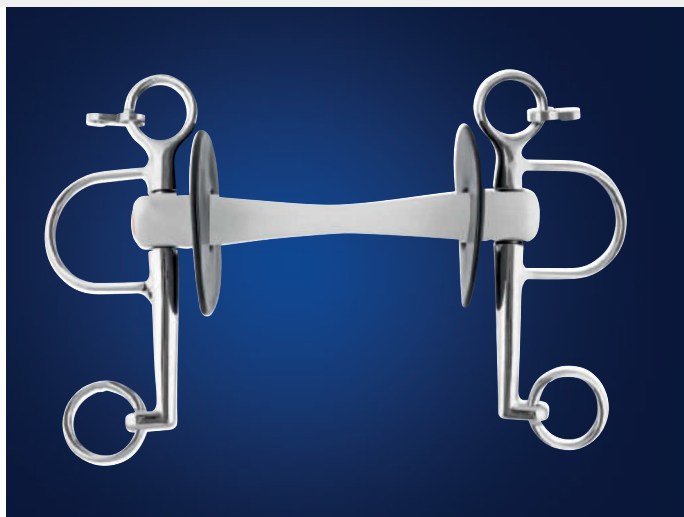

**Nathe Pelham**

with flexible Mullen Mouth

- impact on mouth, poll and lower jaw
- curb chain limits the leverage effect on the poll and acts on the lower jaw
- variable rein options to adjust the leverage effect on the poll
- suitable for strong horses
- bit guards protect the lips
- with steel core
- curb chain not included

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Lower cheek [cm]
3142	Thermoplastic	120	4.3/4	20	5.5

**Pelham bit converters**

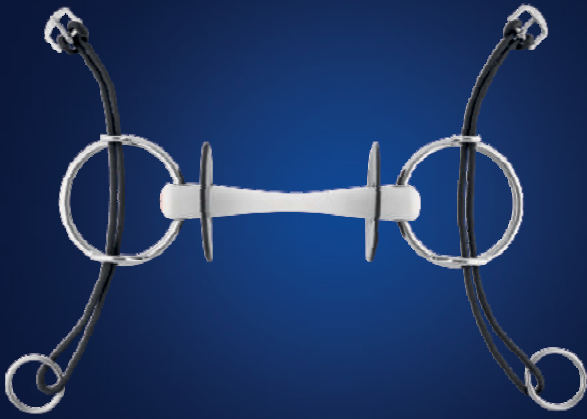

Leather with nylon rope round webbed, by pair

- easy to attach to the Pelham
- HS Logo stamped on the leather part

Article number	Length [cm]	Colour
	16	black
	16	brown

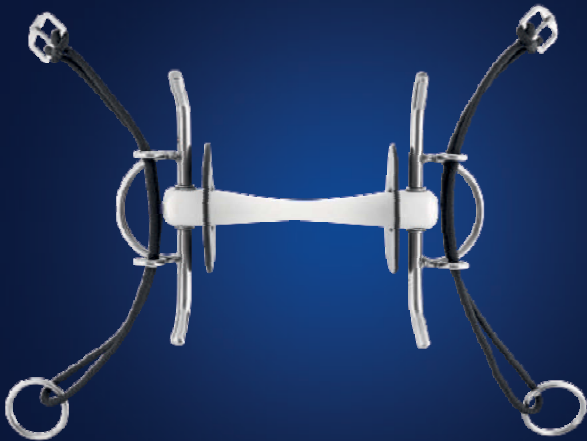

**Nathe Gag bit**

with flexible Mullen Mouth

- impact on mouth, poll and corners of the mouth
- with gag effect, puts pressure on the corners of the mouth
- can be used with one or two pairs of reins
- suitable for technically demanding passages in the parours, especially for horses that pull or lean on the bit
- for the sensitive rider's hand
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3095	Thermoplastic	120	4.3/4	20	70
3095	Thermoplastic	130	5.1/8	20	70
3095	Thermoplastic	140	5.1/2	20	70

**Nathe Full Cheek Gag bit**

with flexible Mullen Mouth

- impact on mouth, poll and corners of the mouth
- with gag effect, puts pressure on the corners of the mouth
- can be used with one or two pairs of reins
- direct impact on tongue and lower jaw due to fixed cheeks
- cheeks provide lateral contact for horses that tend to fall out whilst turning
- suitable for technically demanding passages in the parours, especially for horses that pull or lean on the bit
- for the sensitive rider's hand
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3110	Thermoplastic	120	4.3/4	20	50
3110	Thermoplastic	130	5.1/8	20	50
3110	Thermoplastic	140	5.1/2	20	50

**Nathe RNF-Bit**

with flexible Mullen Mouth

- with low port
- 3 rein options to adjust the leverage effect on the poll
- variable pressure transmission to tongue and jaw angle
- curb chain limits the leverage effect on the poll and acts on the lower jaw
- bit guards protect the lips
- with steel core
- curb chain not included

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]
3165	Thermoplast	120	4.3/4	20
3165	Thermoplast	130	5.1/8	20
3165	Thermoplast	140	5.1/2	20

**Gag cheeks nylon/leather**

Leather with nylon rope round webbed, by pair

Article number	Colour	Length
2988	black	45 cm
2988	brown	45 cm

**Nathe bit guards**

- 75 mm x 20 mm (by pair)
- high-quality rubber

Article number	Colour
2970	black

**Nathe TN-Snaffle**

with flexible Mullen Mouth

- impact on lower jaw and tongue
- for the use of two pairs of reins
- the lower rein doses the effect of the chinstrap on the lower jaw
- suitable for mouth-sensitive horses with pronounced forward tendencies and horses that pull downwards
- sliding of the mouthpiece prevents too much pressure on the tongue
- for the sensitive rider's hand
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3168	Thermoplastic	120	4.3/4	20	70
3168	Thermoplastic	130	5.1/8	20	70
3168	Thermoplastic	140	5.1/2	20	70

**Nathe Tandem snaffle**

with flexible Mullen Mouth

- impact on lower jaw, nose, tongue and poll
- suitable for mouth-sensitive horses as the pressure is distributed on several impact points
- variable rein options to adjust the leverage effect on the poll
- for the sensitive rider's hand
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]
3170	Thermoplastic	120	4.3/4	20
3170	Thermoplastic	130	5.1/8	20
3170	Thermoplastic	140	5.1/2	20

**Nathe Standard snaffle**

with additional small rings

- flexible mouthpiece with low port
- big rings not pivotable to the outside, assists in riding turns
- small ring fixes big ring, limited sliding of the mouthpiece, direct effect on the tongue
- lies steady in the mouth, suitable for horses with contact problems
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3115	Thermoplastic	120	4.3/4	20	70
3115	Thermoplastic	130	5.1/8	20	70
3115	Thermoplastic	140	5.1/2	20	70

**Nathe Mullen Mouth bit**

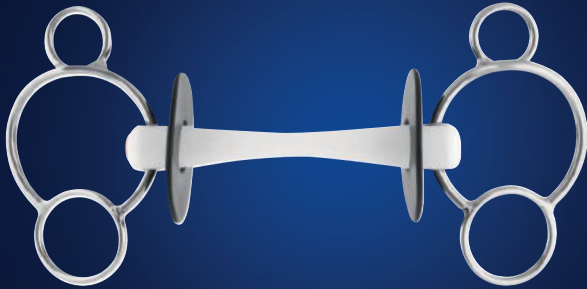

with port and additional small ring

- mouthpiece with port, relieves the middle of the tongue
- big rings not pivotable to the outside, assists in riding turns
- small ring fixes big ring, limited sliding of the mouthpiece, direct effect on the tongue
- lies steady in the mouth, suitable for horses with contact problems
- bit guards protect the lips

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]

3118	Thermoplastic	130	5.1/8	20	70
3118	Thermoplastic	140	5.1/2	20	70

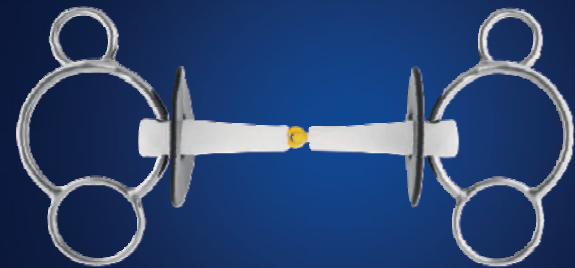

**Nathe 3-Ring bit**

with flexible Mullen Mouth

- with low port
- suitable for horses with pronounced forward tendencies
- variable rein options to adjust the leverage effect on the poll
- greater impact on horses that evade upwards, get strong and are hard to control
- bit guards protect the lips
- with steel core

Article number	Material	Size [mm]	Size [inch]	Thickness [mm]	Ring-Ø [mm]
3154	Thermoplastic	120	4.3/4	20	70
3154	Thermoplastic	130	5.1/8	20	70
3154	Thermoplastic	140	5.1/2	20	70

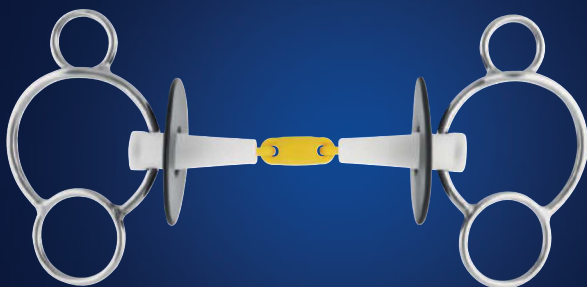

**Nathe 3-Ring bit**

single jointed

- suitable for horses with pronounced forward tendencies
- variable rein options to adjust the leverage effect on the poll
- increased pressure on the edges of the tongue and the lower jaw
- greater impact on horses that evade upwards, get strong and are hard to control
- joints made of anti-allergic plastic
